

Elementary Escrow

The escrow package for software that is low-cost, quickly replaced or for short-term use. Also for the secure storage of evidence.

Service:

- Submitted media are tested for readability
- The material is securely deposited
- One update is made per year (including verification of readability)

Examples of criteria are:

- The software can be replaced quickly should the manufacturer no longer offer support or have to declare bankruptcy
- The software product is only in use for a short time
- The license costs are low

#	Escrow Service	Period	Price
2.1	Safe deposit: supply and assurance	yearly in advance	€500
3.1	Accepting and escrowing 1 material per contract year or duplication to prevent decay if no new version of the MATERIALS is available 12 months after the last storage	yearly in advance	€450
